WHAT IS THE TRUST?

- Founded in 1967, the Trust is an Atlantic-wide, UK based organisation which champions the wild salmon and sea trout – it does not represent any body, only the fish themselves.
- Works for the conservation and restoration of wild salmon and sea trout stocks to a level which allows sustainable exploitation
- Is an independent, registered Charity, with a small staff, which receives no government funding

WHAT DOES THE TRUST DO?

- Funds, conducts and supports marine and freshwater research
- Gives practical advice on the management of fisheries and rivers
- Gives independent advice to governments, international and national authorities and to commercial enterprises
- Co-ordinates activities with other conservation, environmental, fishery, heritage and wildlife agencies and organisations
- Holds and supports seminars and workshops to investigate specific issues
- Publishes high quality reports and booklets to inform and educate

WHAT ARE THE TRUST'S CURRENT ACTIVITIES AND PRIORITIES?

Promoting, taking part in or supporting:

- Research of the survival of salmon at sea
- Restoration of wild salmon and sea trout stocks, especially on the West Coast of Scotland and the Islands
- Reduction of interceptory nets
- Improvement of fish farming codes of practice
- Reduction of mammal and bird predation
- Improving river habitats and water quality

Improving all aspects of our education, information and communications roles.

Playing a proactive part in all management committees and legislative fora.

INTRODUCTORY NOTE

A warm welcome to the Atlantic Salmon Trust's Annual Auction! – for the first time held in conjunction with the support of our good friends the Rivers and Fisheries Trusts of Scotland (RAFTS) and the Association of Rivers Trusts (ART). This is now the most comprehensive selection of quality salmon and sea trout fishing available anywhere at one time – truly the stuff of every fisherman's dreams!!

We warmly welcome new offerings from the Ness, Bellart, Border Esk, Doon, Frome, Lambourn, Lyon, North Tyne, South Esk, Tummel, Ure, Owenmore in Ireland, West Ranga in Iceland, the Namsen in Norway, as well as a great many old favourites on other well known rivers and waters. These have been made available through the generosity of our friends and supporters without whom none of this – our major fundraising activity – would be possible. A massive vote of thanks to all involved for helping the Trust in this way!

Last year the Trust made a record level of grants to rivers, fisheries, scientists, and universities in the interests of achieving abundant and sustainable stocks of wild salmon and sea trout throughout the British Isles. And we are working with international partners to persuade governments and decision-makers that healthy populations of these fish contribute socially and economically.

Our support for research into the lives of salmon at sea through the SALSEA-Merge North Atlantic programme, combined with the new genetic map of salmon river catchments, will give fishery managers the data needed to manage salmon populations, as well as answering why salmon mortality at sea is so high.

Associated closely with marine mortality, is continuing concern over the impact of salmon aquaculture and the detrimental effects of coastal mixed stocks netting. A sustainable salmon and sea trout fisheries sector needs these issues to be addressed, and we are doing so.

Finally, and in response to concerns of our many supporters, the Trust has launched a co-ordinating campaign of existing sea trout research covering all British waters, with the objective of stepping up political and public awareness on behalf of sea trout and the acute survival pressures they face.

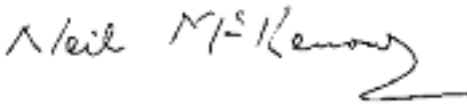

Last year's Auction ran smoothly, and will be repeated in the same format. The majority of Lots will be operated in the traditional Silent (Postal) Auction by post, fax or email to the office – with the final deadline of 9am on Tuesday 3rd February 2009.

The Electronic On-Line Auction will consist of a selected range of Lots and operate as before quite separately with on-line bidding exclusively on the Trust website. This site will close down at 5pm on Monday 2nd February. There will be a reserve price for these bids.

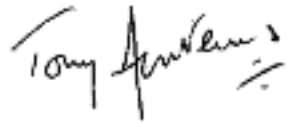

As before, almost the entire catalogue will be published on the website.

Every season is different; a reduced Spring run and late arrival of grilse were compensated by the return to many rivers of a special generation of multi sea winter salmon, whose considerable weight and superb condition testified to their feeding regime! We must fervently hope that they spawned productively!

Everyone at the Trust would like to convey the Compliments of the Season to all our readers, donors, supporters, and bidders old and new; we would encourage you to 'have a go' for as many Lots as possible, sure in the knowledge that your money will go towards worthwhile research and restoration programmes, and that your enjoyment of magical fishing waters will be unsurpassed!

Executive Director

Please contact Jenny if you know of anyone who might enjoy receiving details of the Auction, and we will send out further copies of the catalogue.

AN AUCTION TO BE CONDUCTED
BY POSTAL TENDER FOR THE BENEFIT OF THE ATLANTIC SALMON TRUST,
THE TWEED FOUNDATION, THE WYE OWNERS' ASSOCIATION
RIVERS & FISHERIES TRUSTS OF SCOTLAND, ASSOCIATION OF RIVERS TRUSTS,
THE WILD TROUT TRUST AND THE WEST SUTHERLAND FISHERIES TRUST

BIDDERS PLEASE FOLLOW THIS GUIDANCE CAREFULLY

Submission of bids: Silent (Postal) Auction 2009

- Please submit bids by letter or fax to:

The Atlantic Salmon Trust
King James VI Centre, Friarton Road, Perth PH2 8DG
Fax: 01738 472033

OR email to: jenny@atlanticsalmontrust.org

All bids for the Silent (Postal) auction *must be received by 9am on Tuesday 3rd February 2009*

- Please ensure your **name, full address, telephone number, and e-mail address are printed on the bid.**

Submission of bids: On-Line Auction 2009

Lots will be clearly indicated in the catalogue as 'On-Line Only', and marked with an 'E' in the margin and shown in italics. These may be bid for only On-Line on the Trust's Web site.

- Go to www.atlanticsalmontrust.org and connect by the link on the Home page.
- All on-line bids need to arrive by 5pm on Monday 2nd February 2009, when the site will be closed down.
- You will need to provide your name, address, telephone no, and email address with your bid.
- **There will be a reserve price below which bids on-line will be rejected.**
- AUCTION DAY – Bids will be processed on Tuesday 3rd February 2009 – no telephone calls will be accepted that day. **We will do our best to inform successful bidders in writing within two weeks. They will be put in touch with the donor(s) of the lot.** It is regretted that we cannot undertake to inform all unsuccessful bidders.

General information

- The guide prices given are the owners' estimates. **They are a suggestion of the lowest reasonable bid.** The Atlantic Salmon Trust retains the right to refuse a bid even if it is the highest offered for a lot.
- A '+' sign after the estimate indicates that last year the Lot fetched £100 or more than the guide price.
- Beats suitable for disabled fishermen are marked with a #.

Notes for successful bidders

- **Once notified, please pay promptly, by cheque or bank draft, in sterling,** made out to the Atlantic Salmon Trust. The AST reserves the right to offer a Lot which remains unpaid, to the next highest bidder.
- Where fishing dates for a lot are specified, either by the month or in detail, this is done to fit in with other commitments for the water. **Please do not ask for changes.**
- Where a lot is marked "dates by arrangement with donor", please contact the donor, as early as **possible, to discuss the dates that you wish to take.** This will give you more choice, and is only fair to the donor, who will need to complete arrangements for the year.
- A contact for each donation will be indicated to successful bidders once payment has been received. **Please make sure that you get in touch before beginning to fish.**
- If for some reason you cannot take up a successful bid, **please let the donor and the AST know at once.**
- If the lot has been paid for, and you are then unable to fish, **please let the donor know.**
- Lots in this auction have all been generously given by their proprietors for the benefit of the organisations named above. **They may not be resold or awarded as prizes for competitions without the permission of the donor and of the AST.**
- If you have fished outside the United Kingdom, **please remember the continuing need to ensure that tackle and equipment are thoroughly cleaned and disinfected before fishing,** to avoid the risk of importation of *Gyrodactylus salaris*.
- Successful bidders are reminded that an EA rod licence is required before fishing in England and Wales.

This beat, also known as the Laird's Beat, runs in a rocky, wooded gorge and is one of the loveliest and most exciting stretches in the middle reaches of this well-known river. Owned by Cawdor Castle, the beat is served by a pedestrian suspension-bridge and fishes from the south bank with two rods, fly only, and extends to about three quarters of a mile. The north bank is too sheer or awkward for casting. There is good holding water, with nine named pools. 2008 was a record-breaking year on the beat. Three days, during season 2009, dates will be negotiated with the Administrator at Cawdor Castle. A ghillie is not included in this offer but can be obtained for £80 per day. It is important to note that the Findhorn Conservation Code applies on this beat and details will be supplied. (£650)

RIVER WYE

A percentage of the proceeds of Wye Lots go to the Wye Salmon Fishery Owners Association.

2008 was a big improvement on the Wye, with salmon rod catches exceeding 1000 for the first time in over a decade. 2008 will be remembered for its wet summer and this pushed fish well up the catchment, but who knows what the weatherman has in store for 2009! Mid April, May and June will see the spring run spread throughout the system, but additional water is required to get fish moving in July and August. By autumn this has usually arrived. Fly fishing is becoming the norm but many fisheries allow spinning until the 1st September when the whole river is fly only. One lucky party had 25 for three days and 10 in a day in the Autumn 2008. The trout and grayling fishing remain excellent if the salmon are off.

- 244 (Donated by C.J.D.R. Hopkinson Esq.)

ICELAND AND NORWAY

Nordura River.

Fiskum Fall, Upper Namsen.

ICELAND

LOT NO.

NORDURÁ RIVER

279 (Donated by Aardvark McLeod)

This beautiful river is one of Iceland's top producing natural rivers with over 3,300 fish to 12 rods for the 2008 season. The dramatic scenery and fascinating topography of the river lend themselves well to single handed and two handed fishing using light tackle and surface action. As it has many deep canyon sections the river is also dependable in adverse conditions. When combined with the stunning lodge overlooking Glanni Falls, incredible food and fantastic guiding it is no wonder the Nordurá is one of the most sought after rivers in Iceland.

Three days fishing for one rod from lunch time 27th June to lunch time 30th June 2009, – beginning of the prime fishing period – to include full board and lodging, transfers from Keflavik airport and guiding based on shared guide.

Rod share or partner/companion possible, with further details available on request. (£3,475)

WEST RANGA RIVER

280 (Donated by Mr. Arni Baldursson, Angling Club Lax-a – for the benefit of RAFTS)

In 2007 the West Ranga river produced more than 6,000 fish, making it the second most prolific river in Iceland for that year. The 2008 season catch has been over 13,000 fish, a record for the river.

An outstanding opportunity for one rod to fish for early Spring 2SW fish, all inclusive in Iceland: Transfers, three nights in camp, full board and lodging, guiding, and fishing for three days noon-noon, from the 2nd to 5th July 2009. Fly only. Others will fish at same time. See Angling Club Lax-a website : www.lax-a.is.

(£1,700)

NORWAY

LOT NO.

UPPER NAMSEN RIVER, CENTRAL NORWAY
